ABOUT

Entrepreneur. Interested in project management, IoT, blockchain technology, DevOps. My strong points are soft skills and communication talent. I speak three languages, Russian, English and German.

EDUCATION

2006—2014	Goverment Capital Gymnasium
2014—2016	School 179
2016—present	**Moscow Institute of Physics and Technology**, Department of Innovations and High Technology

EXPERIENCE

Worked as a development manager with CryptoBazar Fund and with IDACB Fund. Currently I'm an entrepreneur and CTO of Phystech.Genesis company, in parallel I run a software consultancy with my teams, we do some cool open-source software projects like liboffkv and isekai.

2019	Organiser and moderator of the overall Russa hackathon in five cities
2019	Organizer of four Moscow hackathons

AWARDS

I have created two efficient teams and we have won a number of hackathons.

2017	4th place in "LAToken hackathon": smart contract for tokenization of different kinds of assets
2018	1st place in "Global Changers" hackathon: client support bot system
